

# Our values

Together we are **Caring, Professional and Honest**, so every patient we serve and every person we work alongside feels valued.

We are  
**Caring**

We are compassionate and inclusive, valuing the contribution of others. We see all patients and colleagues as individuals, respecting diversity, protecting dignity and helping people feel safe, included and valued.

We are  
**Professional**

We put safety first for patients and colleagues. We aim for excellence, act with integrity, take accountability, and always learn. We are inclusive and collaborate to improve services.

We are  
**Honest**

We communicate and act with clarity, openness and integrity. We speak up with courage and kindness, listen to all views to support safety, and follow through by explaining what action can be taken and why.
